CHUANGJI MOULD

CHUANGJI MOULD is located in HUANGYAN, Taizhou city, which is famous as a mould town. We are specialized in making the automotive mould (Automtive Interior and Exterior Mould, Functional Mould), motocycle parts mould (Helmet Mould, lens, Motorcycle Lamp and accessories), electrical car, home appliance mould. We have been dedicated in design and innovate the mould for automotive interior, exterior products and motocycle parts for a few years.

Since 2008 after CHUANGJI MOULD established, we has developed with high precise machining and three coordinate inspecting equipments: including high speed CNC machining center, high speed extra large CNC milling, high speed vertical machining center, mirror EDM and hole

drilling machine,etc.

We also adopt first-class CAD/CAM/CAE technology system. With our High Precision, world-class standard, effective after-sale service team, we successfully establish the steady cooperation with one of the top automobile company”Changan Automobile Group”.

With our one-stop mould solution, we are proud that our production for various LED rear lamps for motorcycle is in short supply, This also makes us a professional manufacturer of motorcycle parts in the domestic market.

CHUANGJI MOULD has Self-owned Brand JPA, JPA is also registered in more than 10 countries. The JPA series products have been exported to Europe, England, North America and Southeast Asia. We trust the market will be more and more in the future.

CHUANGJI MOULD is a big family. We’re always adhering to “Innovation as our development, High quality as our base” management concept. We’re committed to become the world's more trusted one-stop automotive and motorcycle mold company, truly realize win-win with our clients.
